FLASHFORGE FINDER

SAFE, EASY-TO-USE AND COST-EFFECTIVE

FEATURES

- Industrial Design with no edges and no corners
- Support adjustment of printing speed and temperature in the printing process
- Allows direct print from a mobile App and one-click print
- Supports Wifi, USB cable, and USB stick connection
- Optimized intelligent data contributes to print quality
- Support Flashcloud
- Add LED light under the extruder, more soft and not feel harsh

BASIC PARAMETERS

No. of extruders	Single
Printing Technology	FFF
Positioning Accuracy	Z Axis 0.0025mm XY Axis 0.011mm
Printing Accuracy	0.1mm
Layer Thickness	0.05-0.4mm
Building Size	140 x 140 x 140mm
Nozzle Diameter	0.4mm
Shaft Speed	40-200mm/s
Nozzle Flow Rate	24cc/hr
Nozzle Temp.	240°C
Automatic Aided Leveling	Yes
Print Preview	Preview available for gx format

SPECIFICATIONS

Equipment Size	420 X420 X 420mm
Package Size	500 X 485 X 510mm
Product Weight	9 kg
Power Requirements	100-240VAC Input, Power 65W
File Types	STL / OBJ / BMP/PNG/JPG Read by SD Card
Operating System	Windows XP / Vista Windows 7 / Linux / Mac OS
Display Language	English
Software Language	English
Printing Software	Flashprint
Compatible Software	Simplyfy 3D, Slic3r Skeinforge, Cura (Setup before use)
Connectivity	USB Cable/ USB Disk/ WiFi
Operating Manual	In SD Card / Online Video / QuickStartGuide
