#### APPLICATIONS

- Schools & Educational Institutes
- Mechanical Field
- Aerospace Field

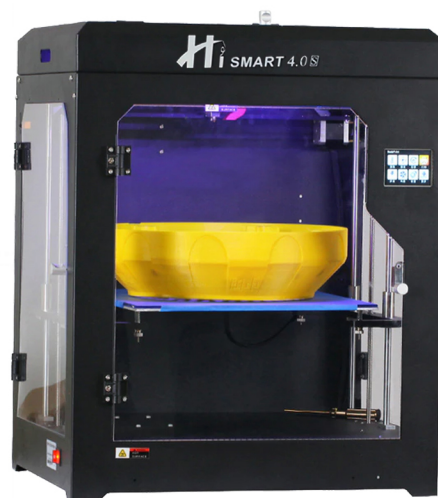

# Hi Smart 500\*500\*600

## Big size dual extruder printer

### FEATURES

- High quality raw steel, high quality shell
- Flexible cover is convenient for observing process
- Smoothly running diive-chain
- Biaxial design - strong support
- Detachable glass platform
- Full-color LCD touch screen & Humanized operation

### PRINTING

|                      |                |
|----------------------|----------------|
| Printing Technology  | FDM            |
| Printing Size        | 500*500*600mm  |
| Printing speed       | 180mm/s        |
| Precision            | 0.05mm         |
| Layer thickness      | 0.05-03mm      |
| Nozzle Diameter      | 0.4mm          |
| Hotbed temperature   | 60°C           |
| Extruder temperature | 230°C          |
| Working Mode         | USB or SD Card |
| File format          | STL\OBJ\GCode  |

### SOFTWARE & ELECTRICAL

|                   |                       |
|-------------------|-----------------------|
| Power Supply      | 24V/15A/360W          |
| Filaments         | PLA/ABS/WOOD/METAL    |
| Filament diameter | 1.75mm                |
| Display           | 3.2 inch Touch screen |
| Software          | Cura/Simplify 3d      |

### MECHANICAL & DIMENSIONS

|                   |      |
|-------------------|------|
| Extruder Quantity | Dual |
|-------------------|------|
