X-PRO

DUAL EXTRUDER 3D PRINTER

FEATURES

- The dual extruder supports double color printing
- High precision, Effectively prevent nozzle clogging
- Four sides Blowing Turbofan
- Heating bed support printing ABS as well as PLA filament
- Removable and bendable Build plate
- User-friendly slicing software

BASIC PARAMETERS

No. of extruders	Dual
Printing Technology	FDM
Positioning Accuracy	Z Axis 0.0025mm
	XY Axis 0.011mm
Printing Accuracy	0.1mm
Layer Thickness	0.05-0.4mm
Building Size	230x150x150mm
Nozzle Diameter	0.4mm
Printing Speed	30-150mm/s
Extruder Temp	0-240°C

SPECIFICATIONS

AC Input	100-240V,350W
Package Size	565 x 445 x 500 mm
Output File Type	GCODE
File Types	STL / OBJ
Connectivity	WIFI/Ethernet/U Disk
Display Language	English
Software Langauge	English
Printing Software	Qidiprint
Supported Material	PLA,ABS,TPU,PETG,PVA
