FLASHFORGE ADVENTURER 3

NEW GENERATION, SMART AND LIGHT

FEATURES

- **Big Build Size - Small Device Size**
- **Patented removable extruder structure + No leveling printing**
- **Buckle design removable nozzle**
- **Removable and Heatable and Bendable Platform**
- **Built-in Filament Cartridge Auto Filament loading / Unloading Function**
- **Built-in camera function. On-line monitor printing process**

BASIC PARAMETERS

No. of extruders	Single
Printing Technology	FFF
Positioning Accuracy	Z Axis 0.0025mm XY Axis 0.011mm
Printing Accuracy	0.1mm
Layer Thickness	0.1-0.4mm
Building Size	150 X 150 X 150mm
Nozzle Diameter	0.4mm
Build Plate Temp.	100°C
Automatic Aided Leveling	Yes
Print Preview	Preview available for gx format

SPECIFICATIONS

Product Size	388 X 340 X 405mm
Package Size	480 x 420 x 510mm
Product Weight	9kg
File Types	STL / OBJ / X3G Read by SD Card
Connectivity	Usb Interface, WiFi, Ethernet
Display Language	English
Software Language	English
Printing Software	Flashprint
